Experience

Groupe Prelco | 2022 - Present

Business Analyst (BA) | Digital Transformation Amelioration | 2025 - Present

Process Integration • Cross Functional Coordinator • Technical Solution Development

Lead process and business analysis and requirements gathering, translating stakeholder needs into technical solutions while administering DevOps, SharePoint, and enterprise data infrastructure.

- ◆ Administer DevOps and SharePoint through implementation, integrated testing, and go-live
- ◆ Assess business processes, flagging risks, gaps & transformation impacts
- ◆ Gather, translate, and document stakeholder requirements; validate solutions to objectives

Key Initiative | SharePoint Owner | Initialization & Migration (2026 - Present)

- ◇ Consolidated disorganized legacy SharePoint into a unified 12-channel site with accompanying training & development, restoring access and across all channels

Key Initiative | Fabric SME | Data Warehouse Implementation (2026 - Present)

- ◇ Coordinate as Fabric SME on the enterprise data warehouse build, aligning ETL pipeline and API fields with the integrator to standardize reporting across sites

Key Initiative | DevOps Administrator | NetSuite | ERP Implementation (2023 - Present)

- ◇ Multi-site NetSuite ERP roll-out with francophone partners; ERP now live across 2 sites with 104 active users, 8,323 items and 4,231 BOMs migrated
- ◇ Deliver 60+ hours of end-user training and built the training templates

Quality Specialist | Cross Functional System Integration | 2022 - Present

Change Agent • System Infrastructure Development • Process Improvement

Bridged Transition to Prelco (2025). Drive quality management and process improvement through data-driven reporting, ISO audits, and non-conformance resolution, serving as SME across QMS, CRM, and enterprise system implementations.

- ◆ Liaise with external vendors, consultants & partners on development and issue resolution
- ◆ Maintain data dictionaries, data models, ETL and Power BI reports used for measuring and managing suppliers, tasks, GL analysis, skills, user access, and quality
- ◆ ISO 9001/14001 Audit creation & delivery for 10 processes, 100% on time completion
- ◆ Non-conformance reporting, investigations, CAPA (97% on time completion), QMS SME

Key Initiative | Project Manager | Isovision | QMS Implementation (2023- 2025)

- ◇ Led full-cycle, high adoption QMS deployment across 50 users; cut rework and scrap 34.1%, reduced customer complaints 88%; 10 modules, 30 document groups, 17 workflows and 10 dynamic templates configured

Key Initiative | Subject Matter Expert | HubSpot | CRM System Implementation (2025)

- ◇ Served as SME and super user for a 6-week HubSpot CRM roll-out; 5 months post-launch, adoption reached 1,340 contacts and 42 deals won

Key Initiative | Super User | M365 | Microsoft 365 Platform Implementation (2023)

- ◇ Delivered 260 program training hours as 1 of 14 Super Users on a 6-site, 100-user M365 roll-out, including French-to-English material support

Beclawat Manufacturing | 2016 - 2022

Quality Auditor | Reporting Modernization & Automation | 2018 - 2022

Data Quality • Process Mapping • Production Efficiency • Regulatory Compliance

Modernized quality reporting and audit processes through Power BI and Power Automate, supporting regulatory compliance and continuous improvement across production operations

- ◆ Streamlined quality reporting through Power BI and Power Automate flows
- ◆ Continuous improvement initiatives including audit program redesign and on-boarding

Associate | Tactical Level Process Improvement | 2016 - 2018

Procedural Development • JHSC • Documentation Support • Training
