

Kat Keilty

Project Management · Enterprise Implementations · Systems Architecture · Training & Enablement

Dynamic and results-driven Business Process and Digital Transformation Leader with 10+ years of expertise steering complex ERP, QMS, CRM, and BI implementations from initial requirements gathering through to cross-functional organizational adoption. Thrives at the critical intersection of systems, people, and processes. Proven track record of leveraging systems thinking and Lean methodologies to deliver high-impact, measurable results, including \$270k+ cost savings, 500+ training hours, 400+ documents migrated, -88% in customer complaints, +19% OTD, +44% in bids won.

Expertise

Strategic Leadership

- ◇ Project management
- ◇ Stakeholder engagement
- ◇ Process improvement
- ◇ Cross-functional team leadership
- ◇ Critical systems thinking
- ◇ ISO 9001/14001 compliance

Digital Solutions

- ◇ Software implementations
- ◇ Data quality compliance
- ◇ Agile/Waterfall facilitation
- ◇ Requirements management
- ◇ Strategic reporting & dashboards
- ◇ Compliance monitoring & tracking

Business Intelligence

- ◇ M365 & Fabric adoption
- ◇ DevOps collaboration
- ◇ Data analysis for decision-making
- ◇ ETL configuration
- ◇ Performance metrics
- ◇ Variance analysis

Design & Visual Communication

- ◇ Executive dashboard design
- ◇ Training programs & materials
- ◇ Documentation design & branding
- ◇ SharePoint site architecture
- ◇ Teams channel design
- ◇ Lucid & Visio charting & activities

Education & Development

Academic

- ◇ Athabasca University BSc - Computing and Information Systems Major (In Progress)

Certifications

- ◇ LSSBB | Lean Six Sigma Black Belt (2025)
- ◇ CQPA | Certified Quality Process Analyst — ASQ (2025)
- ◇ ISO 9001 / 14001 | Lead Internal Auditor (2024)
- ◇ BIDA | Business Intelligence & Data Analyst — CFI (2024)
- ◇ FMEA | Failure Mode and Effects Risk Analysis (2023)

Languages

- ◇ English - Native / Fluent
- ◇ French - Reading/writing with translation support; follow spoken meetings via translation

Experience

Groupe Prelco | 2022-Present

Business Analyst (BA) | Digital Transformation Amelioration | 2025 - Present

Process Integration · Cross Functional Coordinator · Technical Solution Development

- ◇ Administer DevOps and SharePoint through implementation, integrated testing, and go-live
- ◇ Assess current and future business processes, flagging risks, gaps, and transformation impacts
- ◇ Gather, translate, and document stakeholder requirements; validate solutions against objectives

Key Initiative — SharePoint Owner | Initialisation & Migration (2026, Current)

- ◇ Own SharePoint architecture for the entire business unit, setting up directory structure and initiating new sites
- ◇ Coordinate with channel owners to migrate content from the legacy SharePoint environment and shared S-drive folders

Key Initiative - Fabric SME | Data Warehouse Implementation (2026, Current)

- ◇ Named Fabric SME for a new data warehouse implementation, coordinating API and Medallion Architecture setup with the integrator
- ◇ Beginning power-user training with the consulting team to build internal Fabric capability

Key Initiative - DevOps Administrator | NetSuite | ERP Implementation (2023-Current)

- ◇ Coordinate requirements with francophone partners and consultants for a multi-site ERP rollout, now live across 2 sites with 104 active users
- ◇ Lead process mapping initiatives for the ERP with ongoing solutions development
- ◇ Personally delivered ~55 hours of end-user training on 3 programs to date and created the training templates used across the roll-out
- ◇ Supported master data migration, providing 25+ SQL queries to the import team
- ◇ Migration scope covered 8,323 items, 641 vendors, 149 customers, 139 employees, 4,231 BOMs, and 3,186 manufacturing routings
- ◇ Created SuiteQL queries, SuiteAnalytics Datasets & workbooks, saved searches and customized dashboards as needed to bridge business needs until data warehouse is operational
- ◇ Facilitate Agile and Waterfall sprints across 100+ DevOps sprints, ensuring alignment

Quality Specialist | Cross Functional System Integration | 2022 – Present

Change Agent · System Infrastructure Development · Process Improvement

- ◇ Maintain, train and present 3 data dictionaries, 6 active data models and 3 Power BI reports actively used for management
- ◇ Develop, present and maintain additional reporting and ETL pipelines as needed for measuring and managing suppliers, tasks, GL analysis, skills, user access, and quality
- ◇ Liaise with external vendors, consultants & partners development and issue resolution
- ◇ Audit creation & delivery for 10 processes across ISO 9001/14001 (100% on time completion)

- ◇ Risk analysis program development - 6 templates created including PFMEA & DFMEA
- ◇ Nonconformance reporting, investigations, CAPA (97% on time completion) QMS SME

Key Initiative - Project Manager | Isovision | QMS Implementation (2023-2025)

- ◇ Led full-cycle deployment and legacy migration (Proquis, Ideagen), configuring 10 modules, 50 users, and security/access profiles
- ◇ Migrated 400+ documents and built the governance behind it: 30 document groups, 17 workflow configurations, with 1200+ controlled documents active in the database to date
- ◇ Designed and delivered 100+ hours of custom training programs, allowing 30+ vendor training hours from initial contract to be banked for extended support
- ◇ Reduced customer nonconformances 88%, supplier nonconformances 84%, and internal nonconformances 19.4%
- ◇ Reduced rework and scrap costs by \$271.5K (34.1%), the largest driver of savings on the project
- ◇ Grew bids won 44% and supplier on-time delivery 19%, alongside a 15% gain in internal OTD on sales shipments
- ◇ Recognized by vendor as adoption leader providing development & improvement feedback

Key Initiative - Subject Matter Expert | HubSpot | CRM System Implementation (2025)

- ◇ Served as SME and super user for a 6-week roll-out, training 6 users start to finish
- ◇ 5 month post-launch snapshot for the initiative: 1,340 contacts migrated, 81% proposal submission rate, 42 deals closed won

Key Initiative - Super User | M365 | Microsoft 365 Platform Implementation (2023)

- ◇ Selected as 1 of 14 Super Users for an EN/FR enterprise roll-out across 6 sites and 100 users
- ◇ Personally delivered 260 of the program's ~970 training hours to 25+ end users
- ◇ Translated and supplemented French-language materials, with translation tools, to support anglophone adoption

Beclawat Manufacturing | 2016-2022

Quality Auditor | Reporting Modernization & Automation | 2018 – 2022

Data Quality · Process Mapping · Production Efficiency · Regulatory Compliance

- ◇ Managed standards, specifications, and documentation for compliance and consistency
- ◇ Maintained QMS database while providing strategic knowledge transfer & training
- ◇ Streamlined communication & reporting through Power BI and Power Automate solutions
- ◇ Led on-boarding initiatives focused on quality culture and continuous improvement
- ◇ Program redesign & delivery of ISO 9001 audits, presenting findings and process recommendations aligned with business needs

Associate | Tactical level process improvement | 2016 – 2018

Procedural Development · JHSC · Documentation Support · Training
